

BASEBALL IRELAND COVID – 19 Guidance for Baseball Players

UPDATE

On 30 December *An Taoiseach*, Micheál Martin, announced the return of “full scale” Level 5 restrictions in the Republic of Ireland until at least January 31st in a bid to contain the spread of the Covid-19 virus.

Unfortunately, this means that ***no indoor or outdoor baseball activities, including those involving children, should take place*** with an exception for designated High Performance Players. This applies to similar activities in Northern Ireland as well.

Since the start of the pandemic in the island of Ireland, Baseball Ireland have fully endorsed the public health advice of the Irish and Northern Irish Governments.

We will endeavour to maintain engagement with governmental and advisory bodies in an effort to ensure our sport remains closed for as short a period as possible and to seek additional supports for our clubs during these difficult times.

Thank you for your continued patience and cooperation.
